LOGO

The logo can be utilized in its primary color scheme or entirely in white. It is important to ensure that an appropriate level of contrast is maintained for optimal visibility.

COLOURS

The colours on this page also indicate proportional use. Keep it clean by using a lot of white space and mostly Primary colours. Use the Secondary colours sparsely only.

PMS: 2757 C

TYPOGRAPHY

HEADLINE NEW ALWYN BOLD CAPS 32/36 LEFT JUSTIFIED

Subtitle Body Alwyn New Bold 18/22

Intro Alwyn New Medium 11/17 Left Justified - Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

Body Alwyn New Light 11/17 Left Justified - Ut perspiciatis unde omnis iste natus error sit voluptatem accusantium doloremque laudantium, totam rem aperiam, eaque ipsa quae ab illo inventore veritatis et quasi architecto beatae vitae dicta sunt explicabo.

Subheader Alwyn New bold 11/17

Ut labore et dolore magnam aliquam quaerat voluptatem. Ut enim ad minima veniam, quis nostrum exercitationem ullam corporis suscipit laboriosam.

In graphics, the entire Alwyn font family can be used to create differentiation. However, avoid using the italics in any text other than body text.

TYPOGRAPHY

In certain scenarios, especially within Microsoft Word, PowerPoint and Outlook an exception is made regarding font usage. For these programs, the Trebuchet MS font is employed. This choice is strategic; Trebuchet MS is a universally accessible font across all Office programs. Its widespread availability ensures consistency and compatibility in documents and presentations, regardless of the device or platform being used. Documents are often shared and edited by multiple people using different systems. By standardizing the font to Trebuchet MS in Microsoft Office use, we ensure that our communications maintain their intended appearance and readability, irrespective of where or how they are accessed.

GRAPHICS

Our brand’s look and feel is defined by a combination of distinct colors, chosen fonts, and a key graphical element. The latter is a slanted bar with sides at a 15-degree angle, adding dynamism to our design as well as creating a cohesive and recognizable identity for our brand.

MAPS

We use a stylized world map with a blue gradient to illustrate our trading routes. When using only a part of this map, the blue gradient is carefully adjusted to match the width of the visible area, ensuring consistency and visual appeal in all representations.

STANDARD CONTAINERS

Place the logo in the centre horizontally. When placing the logo as a sticker instead of painting it onto the container, we maintain the real logo size irrespective of foil size and use a transparent background/foil.

OUR VESSELS

We find it important that our name is clearly visible on the vessel’s topsides. This should always be painted on the breakwater of the vessel and on both hull sides.

Always paint the vessel’s name on both sides of the bow of the vessel using the font as per the IMO-legislation. In addition, always paint the vessel’s name, ownership or flag and IMO-number on the stern of the vessel using the font as per the IMO-legislation.

We source all high-quality labels from the same supplier to safeguard a consistent colour quality. Please contact Marketing.

Logo A - Always place logo at 76% of total surface height onto which the logo needs to be placed (between hall fenders). Maintain 12% free space above and below (where below is measured from underneath the word “lines”). For the hull sides, this needs to be above the water line, amidships, and at a maximum 1-2 metres to the aft.

Vessel type - Sietas 168: hall fender height 4.2 metre x 76% = 3.2 metre logo height with 50 cms above (deck height) and 50 cms below (bumper strip): i.e., WEC Corneille, WEC Van Gogh, WEC Frans Hals, WEC De Hoogh, WEC Mondriaan, WEC Van Rijn, WEC Jan Steen, and WEC Vermeer.

Logo B - This logo is to be used on the funnel at both port and hull sides as well as on the accommodation at starboard.

Funnel: Always place the logo centred at 86% of the total funnel surface width. Maintain 7% free space left and right.

Accommodation: Always place the logo centred at 90% of the total accommodation surface width. Maintain 5% free space left and right.

Vessel	Freeboard (in m)		Funnel (in m)			Accommodation (in m)	
	Height	Logo height	Width	Height	Logo width	Width	Logo width
